

SHUBHAM SINGH

AI & Full-Stack Developer | Founder — ALTIORA

shubham1712.sin@gmail.com • +91 7488829969 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#) • Bhubaneswar, India

PROFESSIONAL SUMMARY

B.Tech Computer Science student at KIIT and Founder of ALTIORA, a digital product studio building websites, AI-powered tools, and automation systems for businesses. Ships real, end-to-end products across AI/document intelligence, full-stack engineering, and interactive frontend experience design — from InsureFlow AI to SAFAR. Active across open-source (GSSoC), hackathons, and technical competitions, combining engineering depth with product and design thinking.

EXPERIENCE

- Founder — ALTIORA — Digital Product & Web Studio**2026 – Present
 - Founded ALTIORA, a product-first digital studio building websites, AI-powered products, and automation systems for businesses and early-stage founders.
 - Lead end-to-end delivery across product strategy, UI/UX, web development, and AI integration for hospitality, restaurant, and other service-based businesses.
 - Own the full lifecycle from identifying a business's core problem to designing, building, deploying, and iterating the digital solution — building toward a long-term vision of a product-first studio rather than a conventional website agency.
- Open Source Contributor — AI/Agent Track — GirlScript Summer of Code (GSSoC)**May 2026 – Present
 - Selected for GSSoC's Open Source track; contribute to AI and agent-based projects and collaborate on code reviews, features, and documentation within a global developer community.
- Marketing Executive — FED KIIT**Jan 2026 – Present
 - Drive awareness, outreach, and event campaigns for KIIT's entrepreneurship development federation, connecting student entrepreneurs with the startup ecosystem.

SELECTED PROJECTS

- InsureFlow AI — AI-Powered Insurance Claims Platform**
Next.js • Node.js • Supabase (PostgreSQL) • Claude API • OCR
 - Architected an end-to-end claims platform, replacing regex-heavy OCR with a hybrid AI-assisted extraction pipeline for intelligent document parsing and issue detection.
 - Built the full claim lifecycle — intake, AI validation, review, submission, tracking — into a multi-role dashboard with real-time status transitions; shipped 30+ production deployments.
- AutoSpend AI — AI-Powered Financial Intelligence Platform**
React • Node.js • AI Vision / OCR
 - Built an AI-powered financial assistant that extracts and categorizes transactions from screenshots using AI vision, with a dashboard for spending analysis and budget tracking.
 - Won 1st Place at the Skill Hunt Tech Challenge for this project.
- SAFAR — Interactive Web Experience Recreating Indian Train Journeys**
Next.js • React • TypeScript • Tailwind CSS • Framer Motion • Howler.js • Zustand • Vercel
 - Designed an immersive, interactive train-journey experience with an animated train-window interface (Framer Motion) and layered ambient sound and SFX (Howler.js) for nostalgic visual and audio storytelling.
 - Focused on interaction design and experience craft over conventional utility, demonstrating frontend engineering applied to creative, narrative-driven product design.
- Civic Lens AI — Multi-Agent AI Platform for Civic Problem Discovery**
Google AI Infrastructure • Multi-Agent Architecture
 - Built a 7-agent AI system (Vision, Geo, Risk, Prediction, Routing, Dispatch, Verification) to identify, analyze, and route real-world civic issues — a Vibe2Ship Hackathon submission.
- Additional Builds:** AI Chat Assistant (conversational AI, Node.js/Express) • RailMate (AI-assisted railway route-planning concept)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend / DB: Node.js, Express.js, REST APIs, PostgreSQL, Supabase, MongoDB
AI / Automation: Claude API, LLM Integration, OCR & Document AI, Multi-Agent Systems
Tools: Git, GitHub, Vercel, VS Code, Postman

ACHIEVEMENTS & COMPETITIONS

- 1st Place — Skill Hunt Tech Challenge — AutoSpend AI
- Team Lead, Selected — Smart India Hackathon (SIH) 2026 — Internal Round, Blockchain & Cybersecurity theme
- Top 400 Leaderboard, Challenge 3 — PromptWars Virtual (Google for Developers x Hack2Skill) — StadiumOS AI, CarbonTwin AI

CERTIFICATIONS

Generative AI, AI Essentials & Prompting Essentials (Google) • HTML/CSS Programming (Microsoft/Certiport)

EDUCATION

B.Tech, Computer Science & Engineering — KIIT — Kalinga Institute of Industrial Technology, Bhubaneswar2025 – 2029
